

In Re: Petition of MS. WEI LIN

Form I-140 — EB-1A, Alien of Extraordinary Ability in Bioinformatics

(SYNTHETIC DEMO — Not a real petition. Generated for portfolio purposes.)

This brief sets forth the basis upon which Petitioner WEI LIN qualifies for classification as an alien of extraordinary ability under INA § 203(b)(1)(A) and 8 C.F.R. § 204.5(h). Petitioner self-petitions on the basis of demonstrated extraordinary ability in the field of bioinformatics, specifically in single-cell RNA sequencing analysis pipelines.

I. Regulatory Framework and Criteria Asserted

Petitioner satisfies at least four of the ten regulatory criteria enumerated at 8 C.F.R. § 204.5(h)(3): membership in associations requiring outstanding achievement, authorship of scholarly articles, judging of others' work, and original contributions of major significance. Each is addressed below.

A. Membership in Associations Requiring Outstanding Achievement

experts in the
field.

B. Authorship of Scholarly Articles

Petitioner has authored two (2) peer-reviewed scholarly articles in major journals:

- "Sparse Decomposition Approaches to scRNA-seq Cell-Type Annotation," published in

2026.

C. Participation as a Judge of the Work of Others

Petitioner has served as a reviewer for two journal manuscripts at Bioinformatics in 2022, prior to receiving her Ph.D. She also served on the program committee of the ISCB Regional Student Group meeting in 2021.

D. Original Scientific Contributions of Major Significance

Petitioner developed a novel sparse decomposition technique that reduces memory requirements for cell-cell distance computation by approximately 40% in a benchmark

II. Compensation

Petitioner is currently employed as a Senior Bioinformatics Scientist at a biotech firm in South San Francisco, California, with a total annual compensation of \$215,000. This compensation reflects the petitioner's expertise and the value placed on her contributions by her employer.

(Note: the petition does not include a salary comparator analysis or BLS wage data. Petitioner's compensation is high relative to her field but no comparative dataset is referenced in this brief.)

III. Conclusion

For the foregoing reasons, Petitioner respectfully submits that she satisfies at least four of the ten regulatory criteria at 8 C.F.R. § 204.5(h)(3) and qualifies for classification as an alien of extraordinary ability under INA § 203(b)(1)(A). Petitioner respectfully requests that her Form I-140 be approved.

Respectfully submitted,
